Postdoctoral Research Fellow

- I joined RVC to work with Professor Stephen Hailes of UCL Computer Science, Professor Alan Wilson, the head of RVC Structure and Motion Laboratory, and Professor Jenny Morton at the Department of Pharmacology, University of Cambridge. I worked on measuring cognitive, locomotor, social dynamics and behavioural functions in a transgenic sheep model of Huntington's Disease, using multi-sensory custom devices for large-scale monitoring, the results of which appeared on high impact journals such as Current Biology, and popular press such the BBC and the Science magazine.
